

New Consultant Welcome Packets

"You only have one chance to make a great first impression."

How many times have you heard this old cliché, and put it to good use?

Your Welcome Packet is one of the most important pieces of literature your new Unit Member will receive in her first few days of business. It is a direct reflection of you...your focus, your expectations, your rewards, your personality.

What does your current Welcome Packet say about you?

Together with TC Consulting, we have the ability to create a packet that will become your signature "Welcome to the Unit!" With the style and flare of a color presentation, your new Unit Member is sure to be "WOW-ed" even more than when she signed her Agreement!

The 3-step process to complete your Welcome Packet is very simple and completely painless!

1. Choose one of the three Welcome Package options which will be best suited for you and your Unit. All come with the ability to be completely customized with your inserts or any of the magnificent inserts that we have acquired from dozens of other Directors.

2. Create a Table of Contents page listing the document names in the order in which you would like them to appear. This is for our reference, and will not be included in the final product. Please note any document that is found on this website with a "TCC" beside the listing.

3. Email the pages that you'd like to include in your Welcome Packet. *All documents must be in Adobe (.pdf) format. (Instructions are on next page.)* These pages can be sent altogether in one file, or they can each be done individually. *Kindly proofread and review your documents' content and creation prior to emailing them for assembly into your Welcome Packet. Page additions, deletions, and revisions are accepted twice within the initial Set-Up process.* Any document that is found on this website and is not personalized does not need to be sent. Simply place a "(TCC)" next to the line on your TOC.

That's it! From there, they will be combined into a single Adobe file, and a "Master" packet will be created for your review. Upon your initial approval of this packet via email, you will receive a hard copy via US Mail for a final approval. There is a one-time Setup Fee of \$40 which will be collected at that time. This includes the creation of the single Adobe file, the mailed initial draft as well as a CD with the single Adobe file of your Welcome Packet which will be mailed with your first order.
